

GREEN-TRACK™

A service of Blue World, Inc.

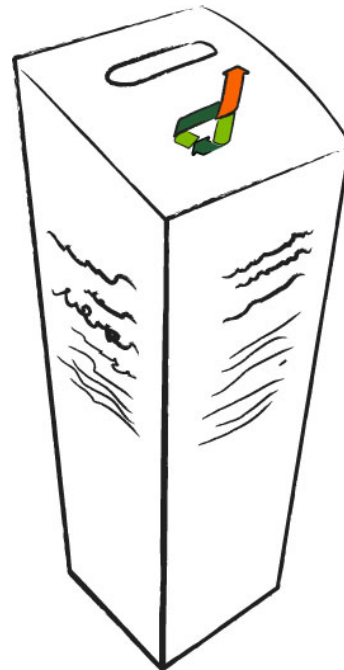

Corporate Sustainability for a Better World

Going Green

The purpose of Green-Track™ is to create a corporate sustainability program in which your company can easily participate.

By collecting TASSIMO T-DISCs in a Green-Track™ Collection Container, your company can ensure that this refuse will not end up in a landfill.

How It Works

Step 1: Go online to www.blueworldinc.com/greentrack

Step 2: Purchase your official Green-Track™ Collection Container for \$79.95

Step 3: Once you have filled up your Green-Track™ Collection Container with TASSIMO PROFESSIONAL T-DISCs, attach the prepaid UPS Shipping label to the box and have your UPS delivery person pick up the box.
